Ian Emsens
Developer

Springbok Agency (2019 - 2021)
Full-stack Developer

At Springbok Agency, I chose to diversify. The Mechelen-based agency allowed me to gain experience in DevOps (GitHub, Envoyer, Azure DevOps), AWS, Azure, Stencil, Vue.js and many more full-stack technologies.

My role at Springbok was extremely fluid, between assisting in project management and analysing SAP-based back-end integrations I spent my time building projects from scratch, maintaining existing applications and guiding colleagues.

Flow Pilots (2016 - 2019)
Front-end Developer

After a successful internship, I decided to stick around at Flow Pilots, an Antwerp-based mobile app developer. With a primary focus on building native mobile applications, I got a lot of experience working with strongly-typed languages, object-oriented and reactive programming.

This is also where I picked up my TypeScript and Angular (rc3 - v8) experience and passion.

Designosource (2015 - 2016)
Full-stack Developer

A practice enterprise run by Thomas More for third-year students.

Introduction

Hi, I'm Ian Emsens, a 25 year old developer from Belgium. I build websites, applications and technical integrations with a focus on end-user interaction and ease-of-use.

Creator of **Project Jackhammer**

Developer

Projects

Bridgestone - Front-end development
Stencil & Vue.js & GraphQL - bridgestone.co.uk

Tyre Configurator - Full-stack development
AWS, Laravel, Vue.js - wielen.mercedes-benz.be

Merak - Full-stack development
Laravel - merak.be

Polls - Front-end development
Athlon - Vue.js

VotingApp - Front-end development
Antwerp - Redux & Web sockets

My Tax Locator - Front-end development
Pricewaterhousecoopers - Angular

Easymatch Portals - Front-end development
Angular

Soudal Webshop - Full-stack development
nopCommerce C# - webshop.soudal.com

Flow Pilots Website - Full-stack development
Wordpress - flowpilots.com

Thelmie - Full-stack development
BNP Paribas Fortis - .net MVC C#

Antwerp Museum App - Full-stack development
Drupal & Angular.js - antwerpmuseumapp.com

My Color Passport - Back-end development
Color Passport - PHP - mycolorpassport.com

WOW-routes - Front-end development
Angular.js - wow-routes.com

Education

2020 - 2023
AWS Certified Cloud Practitioner
Global Knowledge

2013 - 2016
Bachelor of Interactive Multimedia & Design
Thomas More, Mechelen

2015 - 2016
Practice Enterprise Designosource
Thomas More, Mechelen

2011 - 2013
Information Management
Miniemeninstituut, Leuven

Languages

Dutch
Native - ILR 5

English
Bilingual - ILR 5

French
Basic - ILR 2

Free time

Games, cats, fitness, travel, road trips, handymanning, photography, architecture, typography
